

Assignment-3

CODE:

```
/*
Name: Aniket Singh
PRN: 21070126013
Batch: AIML - A1
*/

// Problem: Write a menu-driven Java Program to study the concepts of classes, array of objects, instance members, constructors in java. Assignment description: Create a Student class describing attributes of a student like prn, name, DoB, marks etc. Create an array of objects of Student class and perform operations like: Add students, Display, Search(by prn, by name, by position), Update/Edit and Delete.

// Solution: Using private (accessing using getter and setter) variables in a student class and using a student_functions class to perform operations on the student class such as add, display, search, update and delete. 2 classes are used to implement the solution.

import java.util.*;

OUTPUT:

```

Select the operation to modify database:
0. Exit
1. Add student details
2. Display all
3. Search student
4. Update Details
5. Delete record
1
Enter the number of students to be added:
3
Enter the details of the student in the following format: PRN, Name, Date of Birth (dd/mm/yyyy), Marks
100,aniket,13/03/2004,80
Enter the details of the student in the following format: PRN, Name, Date of Birth (dd/mm/yyyy), Marks
101,deepak,05/12/2002,87
Enter the details of the student in the following format: PRN, Name, Date of Birth (dd/mm/yyyy), Marks
102,amal,05/03/2005,70
Select the operation to modify database:
0. Exit
1. Add student details
2. Display all
3. Search student
4. Update Details
5. Delete record
2
Name: aniket | PRN: 100 | DOB: 13/03/2004 | Marks: 80 |

```

```

Name: deepak | PRN: 101 | DOB: 05/12/2002 | Marks: 87 |

Name: amal | PRN: 102 | DOB: 05/03/2005 | Marks: 70 |

Select the operation to modify database:
0. Exit
1. Add student details
2. Display all
3. Search student
4. Update Details
5. Delete record
3
Select the search criteria:
1. PRN
2. Name
3. Position
2
Enter the Name to be searched:
amal
Select the operation to modify database:
0. Exit
1. Add student details
2. Display all
3. Search student
4. Update Details
5. Delete record
4
Enter the PRN of the student to be updated:
100
Enter the details of the student in the following format: PRN, Name, Date of Birth (dd/mm/yyyy), Marks
100,vishnu,09/02/2002,66
Select the operation to modify database:
0. Exit
1. Add student details
2. Display all
3. Search student
4. Update Details
5. Delete record
2
Name: vishnu | PRN: 100 | DOB: 09/02/2002 | Marks: 66 |

Name: deepak | PRN: 101 | DOB: 05/12/2002 | Marks: 87 |

Name: amal | PRN: 102 | DOB: 05/03/2005 | Marks: 70 |

Select the operation to modify database:
0. Exit
1. Add student details
2. Display all
3. Search student
4. Update Details
5. Delete record
5
Enter the PRN of the student to be deleted:
102
Student named:amal deleted successfully
Select the operation to modify database:
0. Exit
1. Add student details

```

```
2. Display all
3. Search student
4. Update Details
5. Delete record
2
Name: vishnu | PRN: 100 | DOB: 09/02/2002 | Marks: 66 |

Name: deepak | PRN: 101 | DOB: 05/12/2002 | Marks: 87 |

Select the operation to modify database:
0. Exit
1. Add student details
2. Display all
3. Search student
4. Update Details
5. Delete record
